About AISS

Astron Institute of Social Sciences, an academic vertical of Astron Hospital & Healthcare Consultants Pvt. Ltd, Gurgaon, is focused on the intensively growing fields of public and community health with emphasis on the underserved section of society at large. It envisions promoting excellence in Healthcare, Research, Education, Training, Skill Building, Skill Enhancement and Consultancy Services. AISS, with its vision and mission to contribute to the fulfilment of the National Health Policy 2015 goals is working towards the development of healthcare workforce with specialised skills and knowledge.

AISS has been accredited by International Accreditation Organization, USA and affiliated with credible organizations like Healthcare Sector Skill Council, a non statutory body of Govt. of India and Association of Healthcare Providers of India.

Course Overview

Medical Laws & Bioethics is a fascinating field of study in the 21st century as advances in medical research and new technologies shift the boundaries of medicine.

New health issues are emerging and patients are increasingly becoming aware of their rights. Legal issues are increasingly taking centre stage. New and complex medico-legal dilemmas are arising in clinical practice, in the realities of human health, and in the relationship between patients and health care professionals.

The certificate course in Medical Laws and Bio-Ethics at AISS is positioned at the constantly changing interface between medicine and law.

Learning Objectives

- 1) To understand the fundamentals of medical laws and bio-ethics related to medical practice.
- 2) To be able to create processes, procedures and SOPs for the organization to prevent issues related to legal provisions & ethical standards in medical practice.
- 3) To be able to effectively respond to the complaints / grievances at the organization level or in the redressal fora under various laws.
