WHO WE ARE?

BPNI

The Breastfeeding Promotion Network of India (BPNI) is a 30- year old organisation specifically working on protecting breastfeeding in India. BPNI works as a technical partner with the Mothers Absolute Affection(MAA) programme of Government of India.

AHPI

Association of Healthcare Providers (India) represents the majority of healthcare providers in India. It works as "not for profit" organization and advocates with the government, regulatory bodies & other stake holders on issues, which have bearing on enabling its members organizations to deliver appropriate healthcare services to community at large. The association functions through an empowered secretariat which facilitates the members organizations in improving their systems, processes and outcomes on continuous basis.

HOW DOES IT HELP YOU?

The accreditation helps in a structured way to improve breastfeeding rates in your hospital. It provides your hospital with a **certificate, valid for 3 years, which you can use for promotion/marketing.** It can help to improve your image in society. More importantly, you will be viewed as providing the gold standard of care as defined by WHO's "Ten Steps to Successful Breastfeeding" and the guidelines of the MAA Programme of the Govt. of India.

HOW MUCH DOES IT COST?

The 1st installment is Rs. 4999/- to conduct a self assessment. It's a readiness check to get an analytical report and technical advice. This helps in understanding where you stand on breastfeeding policy, programme and practices. 2nd installment is Rs. 11999/- to conduct an independent external assessment by an 'authorised assessor'

ACCREDITATION

The accreditation is a two step process; self-assessment and validated by an independent external assessment. If a hospital gets grade-1 as per the guidelines and the key, it is then entitled for a certificate of accreditation.

A STRUCTURED WAY TO IMPROVE HOSPITAL BREASTFEEDING RATES

ACCREDITATION IS A PUBLIC RECOGNITION BY A NATIONAL ACCREDITATION CENTRE THAT YOUR HOSPITAL IS COMMITTED TO "WHO'S TEN STEPS TO SUCCESSFUL BREASTFEEDING"

BENEFITS

01

MOTHERS AND BABIES

Babies and their mothers are the biggest beneficiaries, getting not only the highest quality of care, but also the best quality of nutrition for the best start in life.

02

HOSPITAL

Accreditation stimulates continuous improvement to benchmark with the gold standard. It enables the hospital to demonstrate its commitment to quality care and raises the community's confidence in its services.

03

Hospital Staff

Accreditation provides hospital with continuous learning, leadership and ownership of processes. It improves the professional development of all staff and stimulates quality improvement.
