

To  
Shri. Narendra Modi  
Hon'ble Prime Minister of India

Dear Sir,

**Sub: Requesting a central act to protect healthcare workers.**

The Healthcare workers who are engaged in services towards combating COVID-19 pandemic in our country, are doing so under tremendous mental and physical stress and risking their lives.

Such being the case, recent incidences of assault on the healthcare workers as been seen in some parts of our country, can affect the moral of the workers and create a fear psychosis of threat from anti-social elements.

It is our earnest request that the Central Government should enact a Central act on "Violence against medicare service personnel and damage to property in medicare service institutions", in order to safeguard the lives of those selflessly serving the community.

This will enable the healthcare workers to serve with great enthusiasm so that our country will be able to efficiently overcome the COVID-19 crisis.

Thanking You

Dr. Alexander Thomas  
President, AHPI

Dr. Giridhar Gyani  
Director General, AHPI
